

Star Clusters: the Gaia Revolution

Thursday, 7 October 2021

Clusters as tracers of the Galactic structure and history (11:20 - 13:10)

time	[id] title	presenter
11:20	[56] Stellar clusters in the Milky Way under the lens of Gaia and its friends	BRAGAGLIA, Angela
11:50	[59] Hidden in the haystack: low-luminosity globular clusters towards the Milky Way bulge	GRAN, Felipe
12:05	[57] Galactic bar resonances inferred from kinematically hot stars and association with the local moving groups	KAWATA, Daisuke
12:20	[58] Stellar Streams in the Galactic Disk	TING, Yuan-Sen
12:35	[60] First Phase Space Portrait of Massive Clusters Hierarchical Assembly in the Milky Way	DALESSANDRO, Emanuele
12:50	[61] Poster talk
