## Recent results on quarkonium production

*Wednesday, 10 July 2024 16:30 (25 minutes)*

Selected experimental measurements on quarkonium production in proton-proton and heavy-ion collisions will be presented. Particular attention will be given to those that could help us to build a unified physics picture which can reconcile our understanding of particle production in all collision systems.

### **session**

F. Heavy Flavor and Quarkonia

**Primary author:** CONESA DEL VALLE, Zaida

**Presenter:** CONESA DEL VALLE, Zaida
