

The Milky Way Revealed by Gaia: The Next Frontier

Tuesday, 5 September 2023

WG4 (II) & WG2: The life and death of stars (I). Chair: Mercè Romero (11:10 - 12:41)

time	[id] title	presenter
11:10	[33] Unveiling black holes in open clusters	TORNIAMENTI, Stefano
11:25	[37] Natal Kicks on Compact Objects: Insights from Gaia's Precision Astrometry	ZHAO, Yue
11:40	[99] Follow-up studies of Gaia transients with small and medium-sized telescopes: recent results and findings (poster pitch)	GODUNOVA, Vira
11:42	[75] Potential of Gaia BP/RP spectra and LDS sky surveys for study of high z Universe (poster pitch)	HUDEC, Rene
11:44	[64] Characterisation of Gaia alerts using the Virtual Observatory (poster pitch, online)	SOLANO, Enrique
11:46	[107] Report WG2: The Life and Death of Stars (online)	CLEMENTINI, Gisella
11:56	[103] Gaia RVS spectroscopy: do you really know it? (invited talk)	RECIO-BLANCO, Alejandra
12:26	[35] Young, (metal-)rich ad not alone: formation of thin-disc RR Lyrae stars through binary evolution	IORIO, Giuliano
