

# SPACIOUS Kick Off Meeting

## Tuesday 23 January 2024

### Computational resources (14:30 - 15:30)

time	[id] title	presenter
14:30	[13] Available cloud services and resources at BSC (Agustín, BSC)	
14:40	[14] UK Gaia data mining platform: deploying the Apache-Spark based GDAF on OpenStack cloud infrastructure, features, limitations (Nigel, UEDIN)	
14:50	[15] Issues that are arising regarding scaling this up to many users and very large data sets in the context of “bursty” resource requirements (Nigel, all)	
15:00	[16] GaiaUB experience with the BSC system: deployment of GDAF/BGMfast (Javi, UB)	
15:10	[17] Commercial cloud deployments: experience and options (Xavier, UB)	
15:20	[18] Discussion and prioritisation of actions, +AOB (all)
