

360° Approach to Common Envelope Evolution

From Binary Progenitors to Remnants

Barcelona, 10-14 June 2024

Scientific Programme

- Pre-Common Envelope binary stellar evolution
- Pre-Common Envelope mass loss
- Dynamical Common Envelope ejection
- Post Common Envelope evolution
- Populations constraints on Common Envelope

Scientific Organizing Committee

- Nadejda Blagorodnova (U. of Barcelona)
- Alexey Bobrick (Technion Israel Institute of Technology)
- Hila Glanz (Technion Israel Institute of Technology)
- Tomasz Kamiński (Nicolaus Copernicus Astronomical Center of the Polish Academy of Sciences)
- Friedrich Roepke (Heidelberg Ins. for Theoretical Studies)
- Silvia Toonen (U. of Amsterdam)
