

High Energy Phenomena in Relativistic Outflows VII (HEPRO VII)

Thursday, 11 July 2019

Relativistic outflows from galactic sources - Aula Magna Enric Casassas (11:30 - 12:45)

-Conveners: Marc Ribó

time	[id] title	presenter
11:30	[76] RELATIVISTIC OUTFLOWS FROM COMPACT GALACTIC SOURCES	BORDAS, Pol
12:00	[144] GRS 1758-258 as a winged microquasar	MARTÍ, Josep
12:15	[161] Lorentz factors of compact jets in black hole X-ray binaries	SAKIA, PAYASWINI
12:30	[122] Inclination dependence of the time-lag – photon-index correlation in BHXRBs and its explanation with a simple jet model	KYLAFIS, Nick
